## **HISTORY:**

The Tennessee Wildlife Resources Agency acquired the state's boating program in 1965 with the implementation of the 'Water Safety Act'. Before this date the United States Coast Guard (USCG) administered the state's boating program.

## **INTRODUCTION:**

The 2005 Boating Accident Statistical Report is compiled by the Tennessee Wildlife Resources Agency (TWRA), Boating Division. The data used in this report is retrieved from "reportable boating accident" reports submitted by two groups of people. The first group is TWRA officers who investigate boat accidents and report their findings on TWRA Boating Accident Report forms (BAR) and the second group is individual boaters who use a shorter self-report form designed for minor accidents. This data is for accidents which occurred during the 2005 calendar year.

To be considered a "reportable boating accident", an accident must involve a death, missing person, an injury which requires treatment beyond first aid, or property damage of \$500 or more. Tennessee requires operators involved in an accident to immediately notify TWRA and send in a report within 10 days if an officer does not investigate. Although TWRA officers are required by policy to investigate accidents that result in death or injury they frequently investigate property damage accidents also.

At the end of each calendar year, boating accident data is compiled and assembled into Tennessee's annual report. These statistics are analyzed in an effort to formulate pro-active plans to reduce the number of boating accidents and their related fatalities, injuries, and damage. The accident information is also reported to the USCG Office of Boating Safety in Washington, D.C. to be included in the National Boating Accident Database consisting of data from all U.S. states, commonwealths, and territories.

## **Reporting Criteria and Guidelines for Recreational Vessel Accidents**

- I. Title 33 Code of Federal Regulations, Subchapter Vessel Numbering and Casualty and Accident Reporting, Subpart C – Casualty S – Boating Safety, Part 173 –and Accident Reporting, applies to vessels that are used by their operators for recreational purposes, or that are required to be numbered, except for those vessels required by law to have a Certificate of Inspection.
- II. Recreational vessel means any vessel manufactured or operated for pleasure; or leased, rented, or chartered to another for the latter's pleasure that is propelled or controlled by machinery, sails, oars, paddles, poles, or another vessel.
- III. A recreational boating accident means a recreational vessel, a numbered vessel, or a documented vessel is being used by its operator for recreational purposes **AND** one or more of the following events occur involving the vessel or its equipment:
  - Grounding;
  - Capsizing;
  - Flooding / Swamping;
  - Falls within or overboard a vessel;
  - Person(s) ejected from a vessel;
  - Person leaves a vessel that is underway to swim for pleasure;
  - Person leaves a vessel in an attempt to retrieve a lost item, another person, or another vessel;
  - Sinking;
  - Fire or Explosion;
  - Skier Mishap;
  - Collision with another vessel or object;
  - Striking a submerged object;
  - The vessel, propeller, propulsion unit, or steering machinery strikes a person;
  - Carbon Monoxide asphyxiation.

As a general guideline, if any of the above events occur and there is a reasonable likelihood that as a result of the event(s) – an injury, death, or property damage occurs – the incident is a recreational boating accident. More than likely, the boating trip would have been successfully completed without incident had any of the above event(s) not occurred.

- IV. The operator of a vessel involved in a recreational boating accident as defined in Section III must submit a casualty or accident report to the reporting authority in the State where the accident occurred when:
  - a. A person dies;
  - b. A person is injured and requires medical treatment beyond first aid;
  - c. Damage to vessels and other property totals \$2,000 or more or there is a complete loss of any vessel; or
  - d. A person disappears from the vessel under circumstances that indicate death or injury.

**The following guidelines list occurrences directly or indirectly involving a vessel where vessel activities or operation DID NOT contribute to a boating accident as defined in Section III.** The occurrences alone are considered to be outside the scope of a boating safety program. While these occurrences may be reported in a State and subsequently captured by the Boating Accident Report Database (BARD) system, they will be classified as “**non-reportable recreational boating accidents**” in the National BARD system at Coast Guard Headquarters.

- a. A person dies or is injured from self-inflicted wounds, alcohol poisoning, ingestion of drugs, controlled substances or poison; or from gunshot wounds.
- b. A person dies or is injured from assault by another person or persons while aboard a vessel.
- c. A person dies or is injured from natural causes while aboard a vessel.
- d. A person dies or is injured while swimming for pleasure from a vessel that IS NOT underway (the vessel is anchored, moored, or docked).

**CAUTION needs to be exercised to confirm that the vessel was used as a swimming platform only.** The following are **REPORTABLE** boating accidents involving a swimmer, a recreational vessel and its operation:

- A person dies or is injured while swimming because of Carbon Monoxide asphyxiation;
  - A person dies or is injured while swimming because a vessel is improperly connected to shore power and resultant stray electrical current enters the water causing electrocution;
  - A person dies or is injured after leaving a vessel that is underway to swim for pleasure because the vessel IS NOT anchored, moored or docked and the vessel drifts away from the swimmer and the swimmer is unable to get back to the vessel.
- e. A person dies or is injured in swimming to retrieve an object or a vessel that is adrift from its mooring or dock, having departed from the shore or pier.
  - f. A person dies, or is injured after falling or jumping from a swim raft that is moored or anchored for use as a swimming platform or other purpose.
  - g. A person dies, is injured, or property damage occurs while preparing a vessel for launching or retrieving a vessel **AND** the vessel is not in or upon the water.
  - h. Damage, injury or death results from a fire on shore or a pier that spreads to a vessel or vessels.
  - i. A person dies, is injured, or property damage results from an “ice boat” accident. [An “ice boat” is a device that is designed to travel primarily over the ice on lakes and rivers on runners/blades, carrying at least one person and using a sail for propulsion. It is not designed for use nor has the ability to navigate on open water.]
  - j. Damage, injury or death on a docked or moored vessel resulting from storms, unusual tidal, sea or swell conditions; or when a vessel gets underway in those conditions in an attempt to rescue persons put in peril.
  - k. Damage to a docked or moored vessel due to theft or any vandalism.

- l. Deaths, injury or damage on a docked or moored or anchored non-propelled houseboat or other vessel used primarily as a permanent residence.
- m. A person dies or is injured while using underwater breathing apparatus (i.e., snorkeling or scuba diving) and the vessel did not contribute to the casualty.

## GLOSSARY

**At Anchor-** Held in place in the water by an anchor; includes “moored” to a buoy or anchored vessel and “dragging” anchor.”

**Cabin Motorboat-** Motorboats with a cabin which can be completely closed by means of doors or hatches. Large motorboats with cabins, even though referred to as yachts, are considered to be cabin motorboats.

**Collision with another vessel-** Any striking together of two or more vessels, regardless of operation at time of accident, it is a collision. (Also includes colliding with the tow of another vessel, regardless of the nature of the tow, i.e., surfboard, ski ropes, skier, tow line, etc.)

**Collision with fixed object-** The striking of any fixed object, above or below the surface of the water.

**Collision with floating object-** Collision with any waterborne object above or below the surface that is free to move with the tide, current, or wind, except with another vessel.

**Cruising-** Proceeding normally, unrestricted, with an absence of drastic rudder or engine changes.

**Documented yacht-** A vessel of five or more net tons owned by a citizen of the United States and used exclusively for pleasure with a valid marine document issued by the Coast Guard. Documented vessels are not numbered.

**Drifting-** Underway, but proceeding over the bottom without use of engines, oars or sails; being carried along only by the tide, current, or wind.

**Fallen Skier-** A person who has fallen off their water skis.

**Fault of operator-** Speeding; overloading; improper loading, not properly seating occupants of boat; no proper lookout; carelessness; failure to heed weather warnings; operating in a congested area; not observing the Rules of the Road; unsafe fueling practices; lack of experience; ignorance of aids to navigation; lack of caution in an unfamiliar area of operation; improper installation or maintenance of hull, machinery or equipment; poor judgement; recklessness; overpowering the boat; panic; proceeding in an unseaworthy craft; operating a motorboat near persons in the water; starting engine with clutch engaged or throttle advanced; irresponsible boat handling such as quick, sharp turns.

**Fiberglass (plastic) hull-** Hulls of fiber reinforced plastic. The laminate consists of two basic components, the reinforcing material (glass filaments) and the plastic or resin in which it is embedded.

**Fire/explosion (fuel)-** Accidental combustion of vessel fuel, liquids, including their vapors, or other substances, such as wood or coal.

**Fire/explosion (other)-** Accidental burning or explosion of any material on board except vessel fuels or their vapors.

**Flooding-** Filling with water, regardless of method of ingress, but retaining sufficient buoyancy to remain on the surface.

**Fueling-** Any stage of the fueling operation, primarily concerned with the introduction of explosive or combustible vapors or liquids on board.

**Grounding-** Running aground of a vessel, striking or pounding on rocks, reefs, or shoals; stranding.

**Improper loading-** Loading, including weight shifting, of the vessel causing instability, limited

**Improper lookout-** No proper watch; the failure of the operator to perceive danger because no one was serving as lookout, or the person so serving failed in that regard.

**Inboard-outboard-** Also referred to as inboard/outdrive. Regarded as inboard because the power unit is located inside the boat.

**Maneuvering-** Changing of course, speed, or similar boat handling action during which a high degree of alertness is required or the boat is imperiled because of the operation, i.e. docking, mooring, undocking, etc.

**Motorboat-** Any vessel equipped with propulsion machinery, not more than sixty-five feet in length.

**Motor vessel-** Any vessel equipped with propulsion machinery (other than steam) more than 65 feet long.

**Numbered vessel-** An undocumented vessel numbered by a state with an approved numbering system or by the Coast Guard under Chapter 123 of title 46, U.S.C.

**Open Motorboat-** Craft of open construction specifically built for operating with a motor, including boats canopied or fitted with temporary partial shelters.

**Outboard-** An engine not permanently affixed to the structure of the craft, regardless of the method or location used to mount the engine, e.g. motor wells, “kicker pits”. Motor pockets, etc.

**Overloading-** Excessive loading of the vessel causing instability, limited maneuverability, dangerously reduced freeboard, etc.

**Personal Watercraft-** Craft less than 13 feet in length designed to be operated by a person or persons sitting, standing or kneeling on the craft rather than within the confines of a hull.

**Rules of the Road-** Statutory and regulatory rules governing navigation of vessels.

**Sailboat or auxiliary sailboat-** Craft intended to be propelled primarily by sail, regardless of size or type.

**Skurfing** – Wakesurfing behind the boat on a surfboard.

**Sinking-** Losing enough buoyancy to settle below the surface of the water.

**Speeding-** Operating at a speed, possibly below the posted limit, above that which a reasonable and prudent person would operate under the circumstances.

**Steel hull-** Hulls of sheet steel alloy, not those with steel ribs and wood, canvas, or plastic hull coverings.

**Struck by boat or propeller-** Striking of a victim who is outside of the boat, but not necessarily a swimmer.

**Swamping-** Filling with water, particularly over the side, but retaining sufficient buoyancy to remain on the surface.

**Towing-** Engaged in towing any vessel or object, other than a person.

**Wood hull-** Hulls of plywood, molded plywood, wood planking, or any other fiber in its natural consistency, including those of wooden construction that have been “sheathed” with fiberglass or sheet metal.
